

Slide for School Back-to-School Nights [update names & delete this note]

[INSERT School Name] Invites You to:

DISCOVERING AI

Back-to-School AI Game Plan Event

September 10th & 17th, 2026
5pm PDT, 7pm CDT, 8pm EDT

On-demand access
to all registrants

"Let's work together to prepare every student for success in the Age of AI!"

[Insert Principal's Name]

Why Attend?

-  Designed to help every household have a real **Family AI Conversation**.
-  Get the tools to **align with our school's AI guidelines**, ensuring clear, consistent support at home and in class.
-  Prepare your child for success in a world where **AI is already shaping how we learn, work, and live**.

What to Expect?

-  Practical session hosted by **Amy Love**, the nation's leading voice on AI alignment for families.
-  Answers to your biggest questions and a **step-by-step plan** for safe, productive AI use at home.
-  Walk away with **clarity, confidence**, and a shared understanding across our school **community**.

It's Free — Registration is Required

Join live or watch on demand — just scan to register!

Your attendance is strongly encouraged!

Script to read with prior slide at Back-to-School Nights

Principal's (or designated leader) Script for Back-to-School Night Slide:

“Before we wrap up, I want to personally invite every family to a special two-part event we’re supporting this year...the Back-to-School AI Game Plan event

This is more than just a webinar. It’s a practical, parent-focused session designed to help every household know exactly how to guide your child’s use of AI, at home and in alignment with schools.

You’ll get answers to the most common questions parents have and you’ll walk away with a simple plan for having these crucial conversations at home, all while staying aligned with our school’s expectations.

The two-part event is hosted by Amy Love, who’s recognized nationally for helping schools and families get on the same page about technology and student success. It’s free for all families, though you do need to register to get the link. You can join live, or if your schedule’s tight, register anyway and you’ll get on-demand access to watch when it works for you.

Just scan the QR code on the screen, and you’ll be all set.

We want every family to feel confident and supported in this new era. We can’t do it alone. We need your partnership to help our students thrive.”
